

12" CHIPPER

CH123DH 12" CHIPPER

ECHO Bear Cat's largest and most powerful chipper

- 3.3L Kubota turbo diesel engine
- 12" chipping capacity
- 14"x20" feed opening
- Live hydraulic feed system with 'try again' feature
- Hydraulic lift assist for feed roller
- Cantilevered rotor design eliminates wrapping
- Integrated discharge blower
- 360° rotating discharge chute
- Flow control valve adjusts chipping speed from 0 to 135 board feet per minute
- 4 reversible, heat-treated steel chipper blades
- Five-banded belt drive
- 4-sided anvil

Convenient, hinged cover allows access to engine and locks for tool storage security

The large feed roller can be raised and lowered with a hydraulic jack

Belt engage lever is placed near control panel for easy monitoring of performance

The 989lb, 2" thick disc easily chips through the toughest wood
